ISEE Young Rennes 2024 Newsletters

La Gazette de la Mouette

La Gazette de la Mouette 1

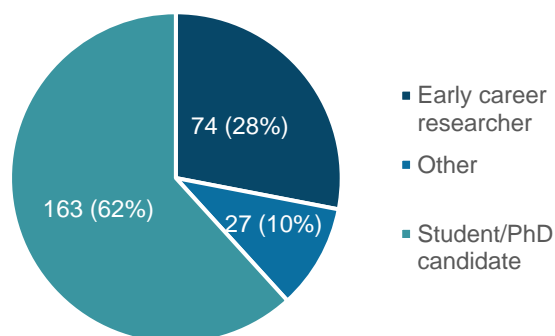

Thank you for all your abstract submissions to ISEE Young 2024!

**We are pleased to announce that we have received
303 abstracts from 264 presenting authors!**

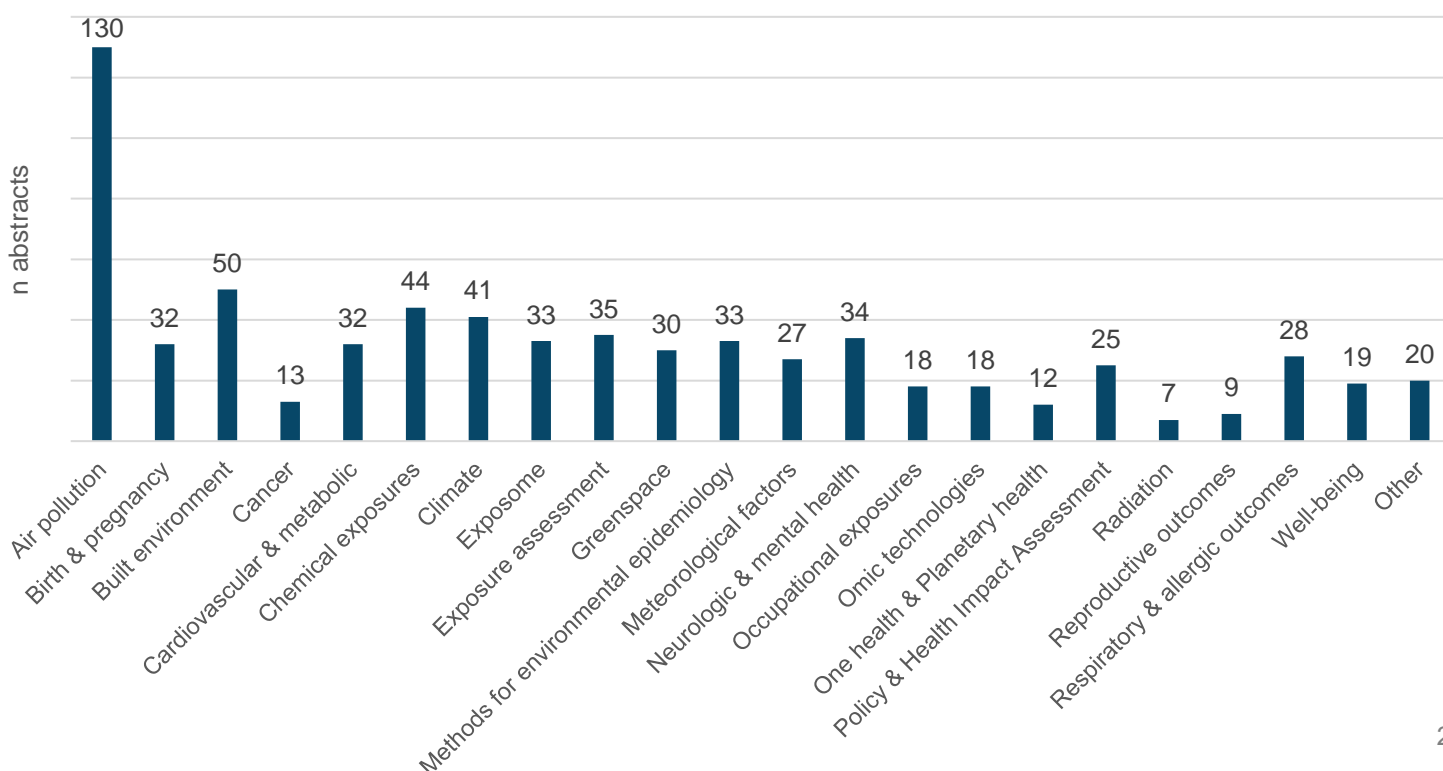

• Abstract in few statistics

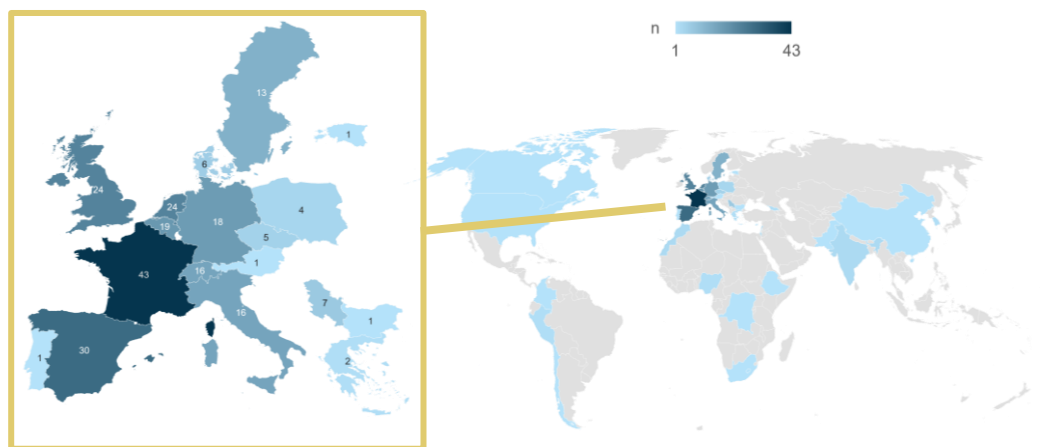

We're particularly pleased to see that a **majority of the presenters are students/PhD candidates**. We hope that all this new blood will bring a wonderful spirit to the conference!

The most popular subject for abstract submission was **air pollution**, with 130 abstracts submitted. It's great! Air pollution is a particularly hot topic, with the European regulatory values being discussed by the European Commission and fought for by the [ISEE Europe Chapter](#).

We're delighted to see that **Europe will be well represented at this conference, as well as other regions of the world!** We can't wait for you to discover Rennes (especially the food!)

- **Nex steps**

The abstracts are currently being assessed by the experts of the scientific committee. **You will be informed whether or not your abstract has been accepted in March.**

Those who'll have **an accepted abstract and currently living and working in Europe** ([as defined by the ISEE](#)), **are eligible for travel awards**. Priority will be given to students and new researchers and those coming from South-East Europe. Applications for these awards will open between 15 March and 1 April. More information coming soon!

Registration will open in March and closes on May 15. The ISEE Young 2024 conference aims to be accessible to researchers who are starting their academic journey. **Registration will therefore be free for PhD candidates and students who have an ISEE membership** (active at the time of registration)! You can already become a member of ISEE:
